PETAL POWER

SHOCK YOUR SKIN

Look no further for the ultimate facial. *Dolce Mag* headed to Elmwood Spa in Toronto to experience one of the latest products to join its glowing roster of offerings — Swiss line's breakthrough Cell Shock Time Reversal Program. International marketing director Custodio d'Avó was on hand to introduce the month-long, anti-aging ampoules regimen before *Dolce* was whisked away for a dreamy Swiss line facial that left our skin plump and firm. Containing a new botanical ingredient that combats cellular toxicity, the Time Reversal Program, which is comprised of an a.m. and p.m. series, fights wrinkles and boosts hydration while brightening and detoxifying the skin.
